

Sustainability program

Neste Oil's sustainability program, the Neste Oil Sustainable Way, summarizes the focus areas of the company's sustainability work. The program's six focus areas highlight Neste Oil's view of sustainability.

Customer

Helping our customers to stay on the move with lower impact on the environment. ▶

Safety

Committed to preventing all accidents and injuries from happening. ▶

Personnel

Creating a working environment where work feels good and does good. ▶

Society

Generating prosperity for our stakeholders and being in active dialogue. ▶

Climate and resource efficiency

Using resources efficiently to minimize the impact on the environment. ▶

Sustainable supply chain

Ensuring that every step in our supply chain complies with our strict sustainability criteria. ▶
